## **General Information**

### ***Governance***

The appraisal district is a political subdivision of the state that was created through legislation passed by the 66<sup>th</sup> Legislature. The District is governed by a board of five directors who are responsible for setting policies, approving the annual budget, and hiring the Chief Appraiser. Additionally, the Board of Directors is responsible for appointing members of the Appraisal Review Board, and the Agricultural Appraisal Advisory Board (AAAB). The Chief Appraiser is responsible for hiring personnel and managing the District's administrative and appraisal operations.

### ***Ad Valorem Tax System***

The property assessment system is a complex and technical profession vital to the financial health of local government. The District's principle task is to discover, list, appraise all taxable property within its jurisdiction, and administer exemptions. The Texas Property Tax Code requires appraisal districts to appraise all real and business personal property at its fair market value as of January 1<sup>st</sup> each year. The District determines the market value of a property using mass appraisal standards and techniques which comply with the Uniform Standards of Professional Appraisal Practices (USPAP). The same appraisal methods and techniques are used in appraising the same or similar kinds of property. The District maintains an appraisal roll identifying taxable property within the territorial boundaries of La Salle County, which collectively creates the tax base which is utilized by taxing jurisdictions to collect the revenue necessary for daily operations and public services.

### ***Appraiser Requirements***

Appraisers employed by the District are subject to the requirements set by the Property Taxation Professional Certification Act (Act) which was passed by the 68<sup>th</sup> Legislature. Appraisers are required to register with the Texas Department of Licensing and Regulation (TDLR) prior to performing appraisal assignments. The Act requires appraisers to successfully complete a series of educational courses and exams which must be completed within a five-year period. Upon completion of all required coursework and examinations, appraisers will earn designation as a Registered Professional Appraiser (RPA). Once an appraiser has been certified as an RPA they must recertify on a biennial basis. Each recertification period must include no less than

thirty hours of continuing education credits (CE), which must include 2 hours of ethics, 3.5 hours of USPAP, and a law and rules update course set by the state legislature. During the 2021 appraisal year the District employed 2 appraisers working toward RPA certification.

### ***Budget Summary***

The District's annual budget is approved by the Board of Directors and funded by the various taxing jurisdictions of La Salle County. The District's budget for 2021 was approved on August 26, 2020 and totaled \$1,781,530. Of that amount, a total of \$1,527,398 will be contributed by each taxing jurisdiction, and a credit of \$254,132 will be applied from unrestricted reserve funds from the District's 2020 budget.

## **Appraisal Activities**

In accordance with the 2021-2022 Reappraisal Plan, the Appraisal District began mass appraisal activities in August of 2020. Mass appraisal consists of the periodic re-inspection of all properties over a three-year cycle. The District performed its mass appraisal objectives through Pictometry or physical inspection. A detailed report of all 2021 appraisal activities is available in the 2021 Mass Appraisal Summary Report.

Upon completion of the mass appraisal process, other yearly appraisal activities are assigned. These activities typically include the discovery of new construction, demolitions, improvement additions, and repairs/remodels. New construction is primarily identified through new development plats and building permits. During mass appraisal, sales data is collected, screened and analyzed through ratio studies, which measure appraisal accuracy and level of appraisal (equal and uniform).

Upon completion of the final value review, the following statistics were compiled. Overall, market value county-wide decreased a total of 14.10%. This decrease was predominantly due to the current market conditions affecting the oil and gas industry.

**Appeals**

Appraisal notices were mailed to property owners and agents on May 4, 2021 and totaled 925.

The second batch of appraisal notices, which consisted of Mineral and Utility properties, were mailed on April 15, 2021. There was a total of three (3) in-house mail outs between the months of May through July for a grand total of 2,992 appraisal notices.

The Chief Appraiser submitted the appraisal roll to the Appraisal Review Board (ARB) on May 14, 2021 thereby initiating the equalization (protest) phase.

As a result of the appraisal notice mail-out, the District received and processed approximately 6,494 protests. The ARB held hearings for 14 days during the months of May, June, and July, and finalized 6,400 out of the 6,494 protest cases. The ARB was able to process, determine and finalize protest cases by July 15, 2021. Consequently, 99.13% of the appraisal roll was approved on July 19, 2021 by the ARB. The Chief Appraiser certified the appraisal roll to the taxing entities on July 21, 2021, and met the required deadline set by TPTC.

## **Exemptions and Agricultural Appraisal Value Loss**

The District is responsible for administering exemption services to property owners. An exemption reduces the taxable value of a property, which in turn decreases the property owner's tax burden. Cumulatively, the total loss for La Salle County due to all exemptions and total exempt properties is \$114,203,232 of market value. The table below summarizes the exemptions available to property owners through La Salle County and the county's total taxable value loss due to each exemption.

<b>La Salle County Exemptions and Value Loss*</b>		
<b>Exemption</b>	<b>Count</b>	<b>Value Loss</b>
<b>Pollution Control</b>	<b>12</b>	<b>19,695,722</b>
<b>Disabled Person</b>	<b>62</b>	<b>589,077</b>
<b>Disabled Veteran 1</b>	<b>5</b>	<b>27,000</b>

<b>Over 65</b>	<b>507</b>	<b>4,832,005</b>

\*As of July 20, 2021 Grand Totals (Does not include Surviving Spouse Exemptions, or Exempt Property)

The Texas Property Tax Code (TPTC) allows property owners to request a special agricultural appraisal. Properties qualifying for this appraisal are assigned a market value and a special agricultural-use value. The special agricultural-use value is lower than market value and the property is assessed at its special agricultural-use value thereby decreasing a property owner's tax burden. Special agricultural-use value is based on the capacity of the property to produce agricultural goods, defined as productivity value. In La Salle County a total of 877,376 acres have qualified for productivity value, with a total value loss of \$1,490,449,481 from a total market value of \$1,537,868,767. The taxing entities may recapture the value difference for the previous five years through a process called a "rollback". A "rollback" is initiated when a property with productivity value ceases agricultural use and a "change of use" occurs.

## **Property Tax Division**

To ensure compliance with applicable state laws and recognized appraisal standards, the Property Tax Assistance Division (PTAD) of the Comptroller's Office conducts two separate reviews which assess the District's performance with regard to appraised value and overall operations. These reviews are known as the Property Value Study (PVS) and the Methods and Assistance Program (MAP) Review. Both are conducted biennially, in alternating years, with the PVS completed every odd numbered year, and the MAP Review every even numbered year. Based on the results of the Property Value Study conducted in 2019, the District met all requirements and received local value certification. Results of the 2019 PVS are available at:

<https://comptroller.texas.gov/taxes/property-tax/pvs/2019f/index.php>.

The Comptroller of Public Accounts will be performing a Property Value Study for the District in the Fall of 2021.

The District's most recent MAP Review was completed in 2020, and the results for this review were "PASS" for all mandatory requirements, "MEETS" for governance, and "MEETS ALL" for taxpayer assistance, operating procedures, and appraisal standards, procedures and methodology.

2020 MAP results may be found here:
